Introducing CERES: A Young Sensation Redefining Music with Authenticity and Passion

Born and raised in the San Gabriel Valley, CERES transcends boundaries and connects with audiences on a profound level. Her love for music and visual art runs deep, serving as both an escape and a means of communication. CERES is a lyricist, vocalist, ukulele player, bassist, and composer of original music.

Through her enchanting compositions, CERES fearlessly explores the complexities of her self-identity as a mixed woman, utilizing music as a pathway to self-discovery and self-acceptance.

Her belief in the power of art to bridge gaps and amplify voices drives her to create music that not only entertains but also serves as a catalyst for change. CERES wants her listeners to know they are not alone in their struggles and that their stories matter. CERES is also a passionate advocate for diversity and inclusion. She believes that everyone has a voice, and she is committed to using her platform to amplify the voices of those who are often marginalized.

CERES' first single, "[STAR.](#)" [was recently featured on KCRW as a top tune](#), and she was selected as one of the [2023 Young Creators Project Winners](#). The Young Creators Project was developed to discover Los Angeles-area musicians and other artists under the age of 21. KCRW is a public radio station based in Santa Monica, known for their commitment to the arts, culture, and community engagement. CERES wrapped up her summer at KCRW Summer Nights in August, opening for Los Angeles icons, [Ozomatli](#), and later joining them onstage.

"A lot of people, especially in my graduating class, have opened up a whole new world of worries about finding ourselves," says CERES. "I feel like the pressure to be something, the pressure to rise above, or to stay in line... it gets overwhelming. And the pandemic really turned everything on its head for this generation because we started to read news stories, and started to see the world around us. It feels like the world's collapsing, but no one will listen to us."

CERES wants her listeners to know that "a lot of what happens in this generation is that we don't get to use our voices even after we've been told so many times that they're worth hearing. So that's what I really want to do with my words and with my music."
